

Electronic Course Registration for the Spring Semester of Academic Year 2025-2026

Postgraduate students of the Interdisciplinary Postgraduate Program in "*Computational Mechanics* " are hereby informed that course registrations for the Spring Semester of the academic year 2025-2026 will be conducted **exclusively online**, via the following web address:

[Spring Semester Course Registration](#)

using your institutional accounts, during the following period:

- **Start:** Monday, 09/02/2026
- **End:** Wednesday, 18/02/2026

First day of classes is Monday 9 February 2026

Important Notes:

- A prerequisite for enrollment in the Spring Semester is the successful completion of **at least two courses from the Winter Semester**.
- **Note I:** It will not be possible to take exams for courses that have not been included in the electronic registration (courses of the current semester or outstanding courses from previous semesters).
- **Note II:** Please note that this registration and course declaration process **is not related** in any way to registration on the Helios platform or any similar procedure.
